

PRECAP

RELIANCE'S

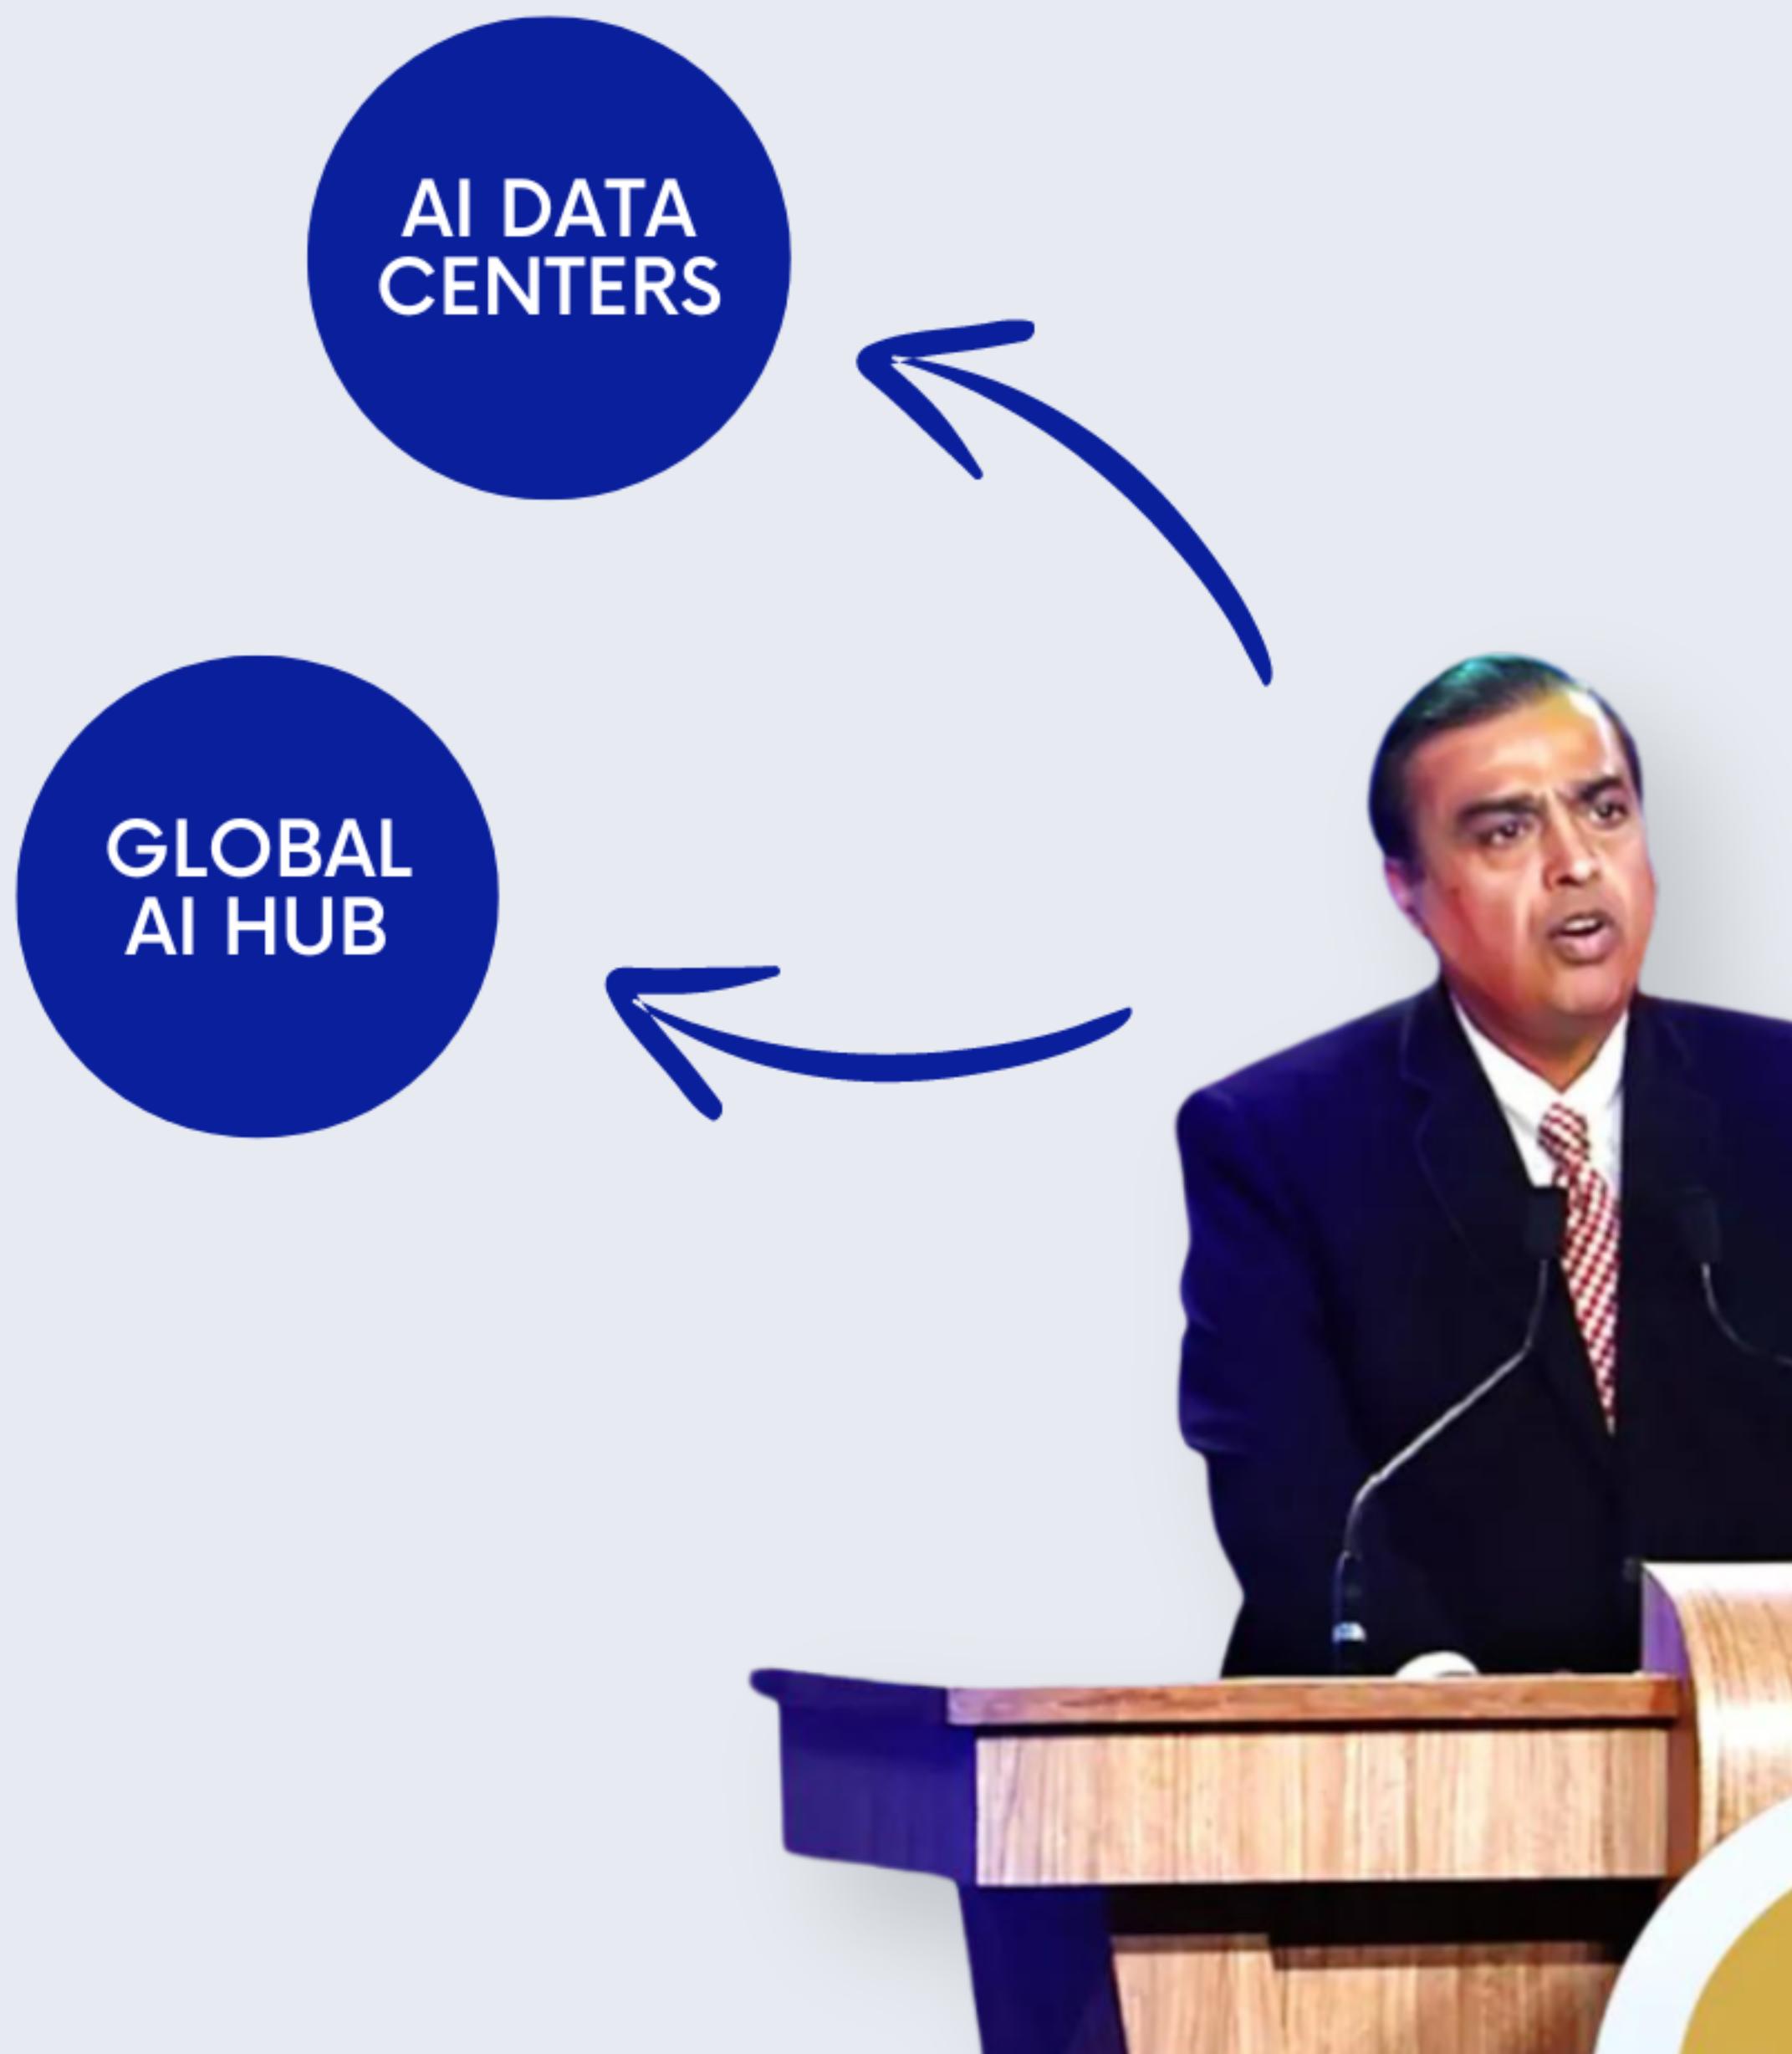

VS. GOOGLE'S

Mukesh Ambani is stepping up to the AI revolution with JioBrain. His goal? To '**democratize**' AI through Reliance's '**AI Everywhere for Everyone**' strategy. JioBrain is packed with AI tools to make financial decisions smarter and more accurately.

To achieve this, Reliance is setting up **massive** AI data centers in **Jamnagar** and AI facilities nationwide. These steps aim to establish India as a **global AI hub** while keeping costs **affordable** for everyone.

In addition, Jio AI-Cloud is offering up to **100GB** of free **cloud storage** this Diwali. A great way to keep your fintech data safe and sound.

With JioPhonecall AI, you can record calls, get **summaries**, and **translations**. It's like having a super-powered assistant right on your phone.

For home entertainment, Jio TvOS delivers **4K** video, **Dolby Vision HDR**, and **Dolby Atmos sound**. It also uses AI to help you find and control your favourite apps seamlessly. **JioTV+** brings together **860+** live channels and top streaming services like **JioCinema**, **Prime Video**, and **Disney+**.
